🧠 Professional Summary

Seasoned technology consultant and AI accessibility advocate with over 30 years of experience spanning cloud architecture, enterprise collaboration platforms, digital accessibility, and supply chain operations. Adept at bridging legacy systems with modern solutions, and passionate about inclusive design, responsible AI, and scalable infrastructure. Proven track record of working across industries and continents—from high-tech deployments to hands-on construction. Experienced in rapid prototyping using Power Platform, Azure OpenAI, and Copilot Studio to deliver scalable, production-ready solutions.

💼 Professional Experience

Cloud and Secure Limited— *Self-Employed*

Nov 2010 – Present | Remote (St. Louis, MO)

- Independent contractor for an Ontario-based firm, certified as a WCAG DHS Trusted Tester
 - Specialized in digital accessibility for users with visual, auditory, and neurological impairments
 - Participated in Microsoft's Azure AI Developer and Teams Developer Programs (2+ years)
 - Tested Azure AI Foundry Studio, focusing on model indexing, chunking, vectoring, and deployment
 - Developed rapid prototypes using Power Platform and Copilot Studio to demonstrate AI-driven automation for business processes.
 - Advocated for responsible AI development, emphasizing fairness, safety, and transparency
-

SharePoint Subject Matter Expert

Emerson Process Management – Europe, Middle East

Aug 2007 – Sep 2010 | Houston, TX (On-site)

- Led enterprise migration from network shares to SharePoint for document control
